Bottom	Closed, reinforced

Properties

140 L transport bin on feet may also be stacked:
when stacked without lid, the feet go inside the bin

Description

The Plastic Stackable Euro Container Euronorm, also known as a transport container, with dimensions of 800 x 600 x H 510 mm and a capacity of 140 liters, offers a practical and versatile solution for both storage and transportation. This closed storage and transport container stands on four legs, allowing it to be easily placed on pallets and moved with forklift trucks.

A notable feature of this container is the wide top edge, which not only serves as a sturdy lid but also functions as a comfortable handle. This makes it easy to lift, carry, and move the container, even when fully loaded.

With a generous capacity of 140 liters, this stackable container provides ample space for storing and transporting various goods, from smaller items to larger objects. Whether for use in warehouses, distribution centers, or for logistical purposes, the Plastic Stackable Euro Container Euronorm is a reliable and efficient choice for organized storage and seamless transportation.
