Max. plate diameter 155

Load capacity (kg) 15 kg

The stacking bin is provided with a smooth base

Description

Stackable container in Euro standard size 400 x 300 mm. Closed and smooth-walled with a smooth bottom. This stackable container is used as a tableware container in gastronomy or as a storage container in industrial applications. Suitable for plates with a diameter of up to 155 mm. The plates can be placed vertically in the container. The stackable container is easy to handle due to the open handles on both short sides. Thanks to the Euro standard sizing, this stackable container perfectly combines with all other Euro standard stackable containers, as well as standardized pallets, roll containers, and mobile bases.
