Description

Black stacking container in Euro-standard size 600 x 400 mm in a completely closed design. Thanks to the smooth bottom, this food-grade stacking container is particularly hygienic and highly suitable for storing and transporting food items. The stacking container is also frequently used as a drip tray under fish crates or dishwashing baskets in Euro-standard format. Due to its standardized dimensions, the stacking container can be stacked with all other Euro-standard stacking containers. Additionally, the Eurobin perfectly combines with standardized pallets, roll cages, and mobile bases without wasting space.
