Description

Black stacking container in Euro-standard size 600 x 400 mm in a completely closed design. Thanks to the smooth bottom, this foodgrade stacking container is particularly hygienic and highly suitable for storing and transporting food items. The stacking container is also frequently used as a drip tray under fish crates or dishwashing baskets in Euro-standard format. Due to its standardized dimensions, the stacking container can be stacked with all other Euro-standard stacking containers. Additionally, the Eurobin perfectly combines with standardized pallets, roll cages, and mobile bases without wasting space.
