

Stacking bin for baking tray - 655 x 450 x H 150 mm

Product specifications

Weight (kg)	1,84 kg
External dimensions (L x W x H)	655 x 450 x 150 mm
Temperature range	-30°C to +80°C
Color	Orange
Material	HDPE
Bottom	Perforated, reinforced
Sidewalls	Perforated
Handles	Open
Internal dimensions (L x W x H)	628 x 422 x 132 mm

Properties

The stacking bins for baking trays are suitable for storage and transport of baking trays (600 x 400 mm)

Description

The stackable crate for baking sheets, also known as the baking sheet crate, measures 655 x 455 x H 150 mm and offers a capacity of 29.4 liters. This crate is designed to comply with food safety standards and features a perforated and reinforced bottom, along with roughly perforated side walls, all in a vibrant orange color. With its four open handles, it's easy to handle and transport.

Due to its specific dimensions and the coarser perforations in the side walls and bottom, this stackable crate is particularly suitable for storing and transporting baking sheets. The larger perforations promote better air circulation, allowing the baking sheets to breathe well and be stored optimally without moisture formation. The sturdy construction and thoughtful design elements allow multiple crates to be efficiently stacked, saving valuable storage space.

Whether used in professional bakeries or at home in the kitchen, this stackable crate for baking sheets offers a convenient solution for organized storage and safe transportation of baking essentials. It promotes a smooth workflow, ensuring that baking sheets can be stored and moved safely and in an organized manner.
