Lightweight stacking crate with perforations in the bottom and side walls

Equipped with two open handles for easy handling

Light reinforced bottom for extra strength

Ideal for universal use in various applications

Dimensions: 600 x 400 x H130 mm

Description

Plastic stackable crate in Euro standard size 600 x 400 x H130 mm. The applications of these crates are versatile and can range from use in the food industry, for transporting vegetables and fruits, to use in warehouses for storing and distributing goods. The perforated bottom with light rib reinforcement ensures that products are well-ventilated, making them also suitable for use in controlled environments. Although it's not possible to add compartment dividers to the light crates, there is ample space for storing products.
