Properties

Features a smooth bottom.

The standard version comes with closed handles.

Lidded containers are also stackable with their lids.

Lidded containers have a detachable hinged lid.

The lidded container comes with two snap-slide fasteners in the lid.

Description

Lidded container made of food-grade plastic. Euro standard size 400 x 300 mm. The lidded container is composed of a stacking container with a hinged lid and two snap-slide fasteners. When in an open state, the lid is removable. Due to its standardized dimensions, the container seamlessly integrates with other Euro standard stacking containers without space wastage, as well as standardized pallets, roll cages, and dollies. The container is also stackable with its lid. The snap-slide fasteners ensure a secure closure of the lidded container while being easily reopened. The lockable lid prevents loss, damage, or contamination of the load during transport.
