Stacking crate R115 - 600 x 400 x H 154 mm

Product specifications

Weight (kg)	1,45 kg
External dimensions (L x W x H)	600 × 400 × 154 mm
Temperature range	-40°C to +70°C
Color	Orange
Material	HDPE
Bottom	Perforated, reinforced
Sidewalls	Perforated
Handles	Open (four openings)
European Article Number	7424903757756
Colorcode	PMS 137 C
Internal dimensions (L x W x H)	568 × 368 × 140 mm

Properties

Sturdy stacking crate made of food-grade plastic	
Coarsely perforated side walls and bottom	
Reinforced bottom	
Four handles for easy handling	
Dimensions: 600 x 400 x H154 mm	

Description

Plastic stackable crate measuring 600 x 400 mm with a height, including the reinforced bottom, of 154 mm. This robust stackable crate is made of food-safe plastic and equipped with a reinforced bottom and four open handles. The side walls and bottom are coarsely perforated, ensuring optimal ventilation of the crate's contents. Ideal for applications in the (industrial) food sector, the textile industry, hospitality, and bakeries. Even under serious challenges like heavy loads and extreme conditions, this stackable container continues to function optimally. The bottom's deformation is nearly negligible. The stackable crate is certainly suitable for other purposes as well. Thanks to its Euro standard size, it perfectly stacks with other Euro standard crates and boxes, and can be transported on standardized pallets, roll containers, and mobile bases without losing space.
