Description

Plastic stacking crate sized 600 x 400 mm in gray color. A robust crate made of food-grade plastic. It features a reinforced base allowing stacking on two 400 x 300 mm crates. The reinforced base ensures minimal flexing even under heavy loads or extreme conditions. With finely perforated side walls and base, the contents are perfectly ventilated. Ideal for various applications in the (industrial) food sector, textile industry, hospitality, and bakeries. Due to its Euro container dimensions, this stacking crate can be efficiently stacked without space wastage on standardized stacking bins, crates, pallets, mobile bases, and roll containers.
