Sidewalls	Closed
Handles	Closed (two recessed handles)
Internal dimensions (L x W x H)	638 × 540 × 217 mm

Properties

Bins are stackable and nestable

Completely smooth form with very few ribs

Description

This stackable-nestable container, measuring 800 x 600 x H 220 mm with a generous capacity of 80 liters, has been meticulously designed with a completely smooth and hygienic surface. It complies with the highest food safety standards and is perfectly suited for use in the food industry.

The container features a closed bottom and sidewalls, ensuring the secure storage of contents without the risk of leakage or contamination. Additionally, two sturdy closed handles in the shape of bowls have been integrated. These handles not only provide an easy way to lift the container but also aid in maintaining a hygienic environment by preventing dirt accumulation.

The smooth and hygienic properties of this container make it an indispensable tool in various environments where hygiene and functionality are crucial. Whether for storage in food processing facilities, distribution centers, or other sectors, this stackable-nestable container ensures safe and efficient goods storage, with an added emphasis on hygiene and user convenience.
