Material	HDPE
Article number	93.99170.1001
Weight (kg)	8 kg
Temperature range	-30°C to +80°C
Color	White
Bottom	Closed and entirely smooth

Properties

Bins are stackable and nestable

Completely smooth form with very few ribs

Description

This stackable-nestable container, measuring 800 x 600 x H 505 mm with a generous capacity of 170 liters, has been meticulously designed with a completely smooth and hygienic surface. It meets the highest standards in food safety and is perfectly suitable for use in the food industry.

The container is equipped with a closed bottom and sidewalls, ensuring safe storage of contents without the risk of leakage or external contamination. Furthermore, it features two sturdy, closed handles in the shape of bowls. These handles not only offer a convenient way to lift the container but also prevent the accumulation of dirt, contributing to the maintenance of a hygienic environment.

Thanks to its smooth and hygienic properties, this stackable-nestable container becomes an essential tool in various environments where hygiene and functionality are of paramount importance. Whether it's for storage in food processing facilities, distribution centers, or other sectors, this container ensures a secure and efficient storage of goods, with extra emphasis on hygiene and user convenience.
