Handles	Open (two openings)
Internal dimensions (L x W x H)	545 x 350 x 230 mm

Properties

Very good support and centring when the bins are stacked

Bins do not slide apart when stacked

Bins and stackable and nestable by rotating a half turn

Description

The COMBI crate is a versatile stack-nestable Euronorm crate measuring 600 x 400 x H 240 mm with a generous capacity of 44.5 liters, delivered in a fully closed design. This crate is designed for both stacking and nesting and comes equipped with two open handles for easy handling.

An outstanding feature of the COMBI crate is its exceptional stability and safety when stacked. Supporting on all four sides of the underlying crate, it ensures a stable stack. The utilized stacking lugs play a crucial role, precisely centering the crates and being highly resistant to impacts.

An additional advantage of these crates is their precise sizing, preventing jamming when nested. This allows for easy stacking without any hindrances.

These COMBI crates find their application in various sectors due to their reliability and properties that are crucial for storage, logistics, and transportation needs.
