Stacking nestable bin is extremely suitable for use with loaves.

Description

This robust plastic stack-nest crate (620 x 500 x H 360 mm - 78 liters) offers versatility and durability. The grey crate is suitable for use with food and is especially ideal as a bread bin, as well as in the textile and laundry sectors.

The bottom and side walls of the crate are perforated, ensuring excellent ventilation and drainage, making it ideal for various applications. Additionally, the crate is equipped with two open handles for easy handling and transportation.

The success of this crate is particularly notable in highly demanding situations where its durability and versatility play a significant role.
