Material	PP
Article number	1834.100.800
Weight (kg)	2,35 kg
Temperature range	-30°C to +80°C
Color	Brown
Bottom	Perforated

The Broban bins are stackable and nestable.

Description

The Broban crate, a stackable-nestable bread crate with a capacity of 47 liters and dimensions of 700 x 496 x H 190 mm, offers versatility and convenience for the bakery industry. This crate is designed to meet the needs of both transporting and displaying various types of bread.

With its galvanized stacking handle and stacking lugs, the crate is ideal for multi-level stacking, allowing for space-saving and efficient use of storage space. Whether it's organizing stock in the bakery or transporting bread to different locations, this functionality proves to be highly beneficial.

The perforated bottom and side walls not only provide strength and durability to the crate but also ensure proper air circulation. This promotes the freshness of the bread by guaranteeing optimal ventilation during both transport and storage.

This Broban crate is a versatile solution suitable for all types of bread, from baguettes to artisan loaves. Thanks to its features, it is ideal for bakeries that value both efficiency and maintaining the quality of their products during transport and presentation.
