Description

Mobile 340-liter plastic waste container. The waste container is entirely smooth-walled, preventing waste and dirt from being retained during emptying. Equipped with a solid steel axle and two wheels Ø 200 mm with a plastic rim and rubber tread. The waste container features a flat, hinged lid. The 360-liter waste container is highly durable due to additional reinforcement in the body and wheel attachment. It has a maximum filling weight of 110 kg. Moreover, the waste container is EN 840 certified, suitable for emptying using the disposal system conforming to DIN EN 840. Manufactured from impact-resistant and chemical-resistant plastic, it withstands acid, weather conditions, and UV radiation.
