

Variogrid producttray Comp 21/22 - 600 x 400 mm - for pins and dividers

Product specifications

Uitwendig (LxBxH)	600 x 400 x 13 mm
Material	Comp 21/22
Article number	53.VG.600.400C
Weight (kg)	1,6 kg
Temperature range	Depending on the entire cleaning process, ask our product specialists for the exact specifications.
Color	Blue
Bottom	Perforated

Description

Variogrid represents the individual design of workpiece carrier systems: It can be adjusted to the required size, therefore enabling the plates to be adapted to the conditions in the cleaning machine and also aiding storage in the small load carrier (SLC). The rotary stacking bolts can be positioned anywhere on the grid plate to allow stacking in any size. The tech-rack variogrid system ensures efficiency and ease of use during all phases of the process: Optimum cleaning results, ultimate protection for sensitive surfaces, safe transportation, ideal storage.

Comp 21/22 excels with even greater chemical and thermal resistance, therefore meeting the higher requirements in industrial parts cleaning. Among other things, this allows for use in autoclaves for steam sterilization. The material doesn't absorb moisture.
