Description

The WZ crate with dimensions 433x352x272 mm is specifically designed for non-Euro standard applications, providing an efficient solution for storage and transport. The half-perforated walls and perforated base ensure optimal ventilation, making the crate ideal for transporting fragile products such as food items. Its stackable design allows for space-saving during storage. Made from high-quality HDPE (High-Density Polyethylene), the crate offers a usable volume of 30 liters. With a dynamic load capacity of 200 kg and a static load capacity of 400 kg, this crate is suitable for heavy-duty applications. The ergonomic handgrips on the short sides provide easy and comfortable manual handling.
